

there are many options, but here are some reasons to go with head nods.

Everyone recognizes head nods, even in a moment of surprise.

NOT everyone is a head nodder, but even an air of excitement can be a head nodder.

Through a head nod, a head nodder can communicate a lot of information. They can communicate a lot of information, but they can also communicate a lot of information.

Through a head nod, a head nodder can communicate a lot of information. They can communicate a lot of information, but they can also communicate a lot of information.
