Dr. David Miyashiro, Superintendent
Cajon Valley Union School District
750 E. Main Street
El Cajon, CA 92020

Subject: Lead Sampling of Drinking Water in California

Dear Dr. Miyashiro:

Congratulations, all water samples collected at the schools in your District have come back ND (Not Detected). Five samples were tested. According to State regulations, the laboratory will report the results to the California State Division of Drinking Water (DDW).

Per the DDW: All initial sample locations with a test result of less than 15 ppb (parts per billion) have lead levels less than the Action Level, the location of the sample. Further testing is needed.

We have also provided a copy of the laboratory results as an attachment to this letter. Our Municipal Water District's Water Quality Specialist, Joe Guzzetta, is available for the following schools.

- Blossom Valley Elementary School
- Crest Elementary School
- Los Coches Creek Middle School
- Rios Elementary School

With the results being below the action level of 15 ppb, the results are being reported to the School District or Padre Dam, and the Lead Testing in School District.

An Everyday Essential

We thank you for your cooperation and support throughout the process. Please contact us if you have any questions.
